ABOUT ME

Motivated AI/ML enthusiast with strong knowledge of Python, SQL, and data analytics, currently specializing in LLMs, RAG, and Agentic AI. Hands-on experience developing AI projects focused on automation, data processing, and intelligent decision-making.

WORK EXPERIENCE

Cybersecurity Research Intern – BARC

Jan 2026 – Jun 2026

- Processed and analyzed 1000+ system logs using Sysmon
- Performed data cleaning, filtering, and preprocessing
- Identified patterns and generated actionable insights
- Documented workflows and analysis processes

Data Analyst Intern – Travel The Cities

Jan 2025 - Mar 2025

- Collected, cleaned, and processed customer booking data using Excel and SQL
- Developed dashboards to track travel package performance and booking trends
- Analyzed customer behavior to generate actionable business insights
- Supported marketing decisions through data-driven reporting and analysis

Data Science Intern – Embrozon Technologies

Jul 2025 – Aug 2025

- Analyzed datasets of 5000+ records using Python and Excel
- Conducted exploratory data analysis to identify trends and patterns
- Built basic machine learning models and generated insights

PROJECT

Bot Detection without CAPTCHA:

Python, Machine Learning, Deep Learning, Random Forest, CNN, LSTM, N-Gram Models

- Developed a CAPTCHA-free bot detection framework using behavioral and environmental signals to distinguish human and automated users.
- Designed feature extraction pipelines using browser and user-interaction data for effective bot classification.
- Implemented and evaluated Random Forest, CNN, LSTM, and N-Gram-based classifiers for automated behavior detection.
- Published research in IJERT (ISSN 2278-0181, Vol. 15, Issue 03, March 2026) demonstrating the effectiveness of CAPTCHA-free bot detection.

AI Video Assistant : RAG,LangChain, Vector Database

- Built an AI-powered meeting assistant for audio/video transcription, automated summarization, action-item and decision extraction.
- Implemented RAG-based conversational querying using LangChain, ChromaDB, and HuggingFace embeddings to interact with meeting transcripts.
- Developed a Streamlit interface supporting YouTube/audio/video input and PDF/TXT report generation.

EDUCATION

A.C Patil College of Engineering

2022 – 2026

B.E in Artificial Intelligence and Data Science
CGPA: 7.89

TECHNICAL SKILLS

- Programming: Python, SQL,PLSQL
- AI & Machine Learning: Machine Learning,LLMs, RAG.Deep Learning,ReactJS
- Data & Analytics: Pandas, NumPy.

CERTIFICATE

- The Complete 2024 Web Development Bootcamp – Udemy
- Real Ethical Hacking - Udemy
- Data Analytics Job Simulation- Accenture
- Deep Learning for Developers- Infosys Springboard
